

# Investment Mixing

## Investment Mixer

### Description :

This machine does the investment mixing & pouring all under vacuum. Which helps in improving the quality of your casting & saves time. This machines eliminates investment problems & increase your productivity. To operate place flask in the lower Chambers and add pre measured water & investment powder in the top chamber operate control exact mixing time and then fill each flask. All work happens under full vacuum. Our in-house manufacturing Can make any size and shape as per the requirement

### **Technical Specification :-**

	<b>Imported Ball wall</b>	<b>Domestic Ball wall</b>
<b>Product Code</b>	<b>AST 1028</b>	<b>AST 1029</b>
Max. Of Flask Dia (mm)	150	100
Hight (mm)	230	200
No. Of Flask	5	5
Flask Tank Dia(mm)	390	390
Hight (mm)	260	248
Max. Invest Power	12Kg.	8Kg.
Mixing Tank Dia(mm)	280	270
Hight(mm)	445	340
Voltage	440V ,50Hz	440V .50Hz
Size Of Machine	1150X615X1365	1113X555X1330
Vaccum Pump Motor	230V ,1.5Hp	230V ,1Hp
Vaccum Pump	40R Busch Pump	325LPM
CFM	21	11.5
Ball Valve	Imported ball wall	In-house Manufactured

Note: Designs & Color may vary without Notice.
