Also available in  
15ltrs, 20ltrs  
& 25ltrs.

## Steam Machine

### Description :

- The steam cleaner boasts an elegant design and solid construction, utilizing superior materials both inside and outside.
- Unlike cast iron tanks, this model features stainless steel construction, ensuring resistance to rust.
- The heavy-duty heating system enhances efficiency, with an automatic cutoff system that controls pressure when the water level drops below the heater.
- Equipped with a double safety system, including electronic and manual safety valves for enhanced safety during operation.
- Available in both semi-automatic and fully automatic configurations, with the option of a booster pump for added convenience.
