

Melting Machine

DC Coil Melter

Description :

- Electric melting furnace featuring a solid steel construction body designed for melting gold, silver, and other non-ferrous alloys for casting.
- Our in-house manufacturing capabilities enable the customization of size and shape to meet specific requirements.

AUTO CUT TEMPERATURE SETTING TRANSFORMER BASED

Technical Specification:

Particulars	Details
Melting Temp	1150°C
Ampere	5A
Watt	1.5Kw
Voltage	220V
Time For Melting	15 min
