

Ultrasonic Machine

Ultrasonic Machine

Description :

- Utilizes industrial transducers to generate power for ultrasonic wavelengths.
- Designed to clean the finest details of jewelry, providing thorough cleaning capable of removing dirt, rouge, and other components.
- Powerful enough to handle not only surface dirt but also tackle more stubborn contaminants.
- Features heavy construction with a stainless steel body for durability and longevity.

Technical Specifications:-

Electric Supply -
AC 230V, 50Hz, Single Phase

Tank Material -
SS 304, 1.5 Thickness

Tank Cover Material -
SS 202

Tranducers -
PZO Dish Type Ultra Sound Block

Temperature Controller -
Switch Manual Working Bottom Bonding
