

Dust Collector

Description :

- High Efficiency Dust collector system by Heavy Suction of Blower .
- 5 Micron Filter Bag for High Rate of Recovery .
- 1/2 HP Pedestal Motor of 2800 RPM. with 7 long grinding spindle & Wheel Use Acrylic wood for high Thickness with Light Reflector .

Technical Specification:	
Power Supply	1 Phase 440V AC, 0.75 KW
Blower Suction	250 CFM (MAX)
