

CNC Machines

Ring Maker CNC Machine

Description

- Bulunmaz Ringmaker CNC machine works on ring bangles of a rectangular profile.
- Motion control system from Mitsubishi for perfect coordination of all system.
- High-speed spindles from Haechi allows to complete the design under 2-3 minutes
- Ability to import 2D designs in DXF format from CorelDRAW, AutoCAD.

Technical Specifications:-

Particulars	Details
Number of axis	3 / 4 / 5 / 6 axis
Application	Bangles , rings, Round Items (rectangular profile) Flat piece upto 8 x 8 cm
Vertical Motor	40,000 rpm 1.2 kW, MTC
Cooling system	Motors air cooling system, work surface spray
Horizontal Motor	12,000 rpm 0.75 kW, MTC
Power	220V, 50/60 Hz, 3.5 kW
Work Surface	X 150mm, Y 360mm, Z 150mm
Motors	Servomotors
Dimension / Weight	75x170x170cm / 400kg
